To: Prospective Offerors:

From: Andrew T. Staples, Contracting Officer

Subject: Request for Quotations (RFQ) Number 19JA25-21-Q-0046 No.1
Multi-Media Installation Services

In response to questions received in regard to the referenced Request for Quotations, the Contracting Officer is disseminating the following information.

Question 1:

Regarding the resolution, there is a specification with WUXGA, but is there any problem with the resolution equivalent to FULL HD that adopted shift technology?

In addition, it corresponds to HD

Answer 1:

The specifications in the RFQ are minimums. The vendor may propose a product with better specifications, including 2-phase and 4-phase pixel-shifting technology. We do not anticipate a lot of 4k video source, but proposing a projector that can upscale from HD to 4k, or handle native 4k sources can be considered if that is the bidders best solution for the conference room environment. Contrast and darkness may be more important than resolution; the bidder should propose equipment that will provide the best viewing experience at a reasonable price, taking into consideration the size of the room and the amount of light in the room.
